

Career Opportunity

Role: IDG Fitter – Electrical Workshop

Location: Stansted, Essex

AEM, with its head office at Stansted Airport, is a subsidiary of AMETEK. As part of AMETEK's Aerospace & Defense Division, AEM is one of the largest independent aircraft component repair and overhaul facilities in Europe.

Due to the further expansion of our Workshops we now have a full-time vacancy, at our Stansted site, for an **IDG Fitter** to repair and overhaul generators and IDGs in accordance with CMMs and Overhaul Manuals ready for final testing.

Main Tasks:

- Overhaul and repair of IDG's, CSD's and generators, and their associated sub-assemblies; to include disassembly, cleaning, inspection, fault finding and repair.
- Operate a variety of test equipment to include bore gauges, verniers, micrometers, digital multi-meters, hi pot testers, presses and soldering irons.

Qualifications:

- ONC / HNC Engineering or equivalent (desirable)
- Numerate and literate – minimum GCSE (or equivalent) Maths and English

Skills and Experience:

- Previous experience of IDG's / CSD's, overhauling generators within an Aerospace background essential.
- Previous lapping and honing experience essential.
- Practical working experience of pistons and piston blocks, wobblers, governors and pumps
- Ability to interpret and follow in detail compliance manuals.
- An ability to work to tight deadlines is essential, whilst maintaining a high degree of quality, workmanship and compliance with health and safety regulations.
- Working within a small team of skilled technicians, reliability, flexibility and team work are key skill requirements within this highly successful department.
- Positive, enthusiastic, confident and motivated

Additional Information:

Working Hours: 39 hour week

Salary: Competitive, depending upon experience
