

Career Opportunity**Role: Operations Engineer****Location: Ramsgate, Kent**

AEM, with its head office at Stansted Airport, is a subsidiary of AMETEK. As part of AMETEK's Aerospace & Defense Division, AEM is one of the largest independent aircraft component repair and overhaul facilities in Europe.

We have an immediate full-time vacancy, at our Ramsgate site for an Operations Engineer; this is a permanent role and reports to the MPBU Manager.

Job Purpose:

To work as part of the Machining and Plating (MP) workshop team, under the day to day direction of the MPBU Manager, supporting the requirements of the operations office.

Main Tasks:

- To prepare concession applications for landing gear OEMs.
- To liaise with OEMs as required with reference to concession applications.
- Update production and customer services team with progress of applications.
- Carry out hardness testing (as required).
- Carry out contract review of MPBU customer work orders.
- Book in and raise relevant paperwork for MPBU work orders.
- Part in accordance with customer and OEM requirements.
- To Carry out intermediate Inspection on various aviation components.
- To Carry out Final Inspection on various aviation components.
- Support the delivery and collection of MPBU and FPBU components.
- Provide technical support for customer services team.
- Raise relevant release documentation in accordance EASA and AS9100/9110 approvals.
- 5's duties of the operations office as required.

Qualifications:

- Engineering qualification or Engineering experience (Essential)
- Highly numerate and literate (have GCSE or equivalent in Maths and English)
- Certifying in accordance EASA and AS9100/9110 requirements.
- Rockwell Hardness Testing.

Experience:

- Capable of using, with a high degree of accuracy, a range of measuring tools.
- Able to work in a team in a demanding, customer focused working environment.
- Able to read engineering drawings.
- CMM competence approved.
- Computer based skills (Microsoft Office).

Competencies

- Ability to work well in multidiscipline/cross-functional teams
- Excellent interpersonal skills and ability to build close-knit relationships with outside agencies
- Strong analytical, administrative and organisation skills and excellent attention to detail
- Innovative and enthusiastic
- Ability to work under pressure, to tight deadlines and multi task
- Strong communicator (written and verbal)
- Creative and outgoing
- Well organised and self-motivated
- Ability to work unsupervised

Additional Information:**Salary:** Competitive, depending upon experience

This role is physically demanding. The successful candidate will be required to meet the physical requirements of the role, including manual handling, on a daily basis. The environment involves working around large machinery and limited exposure to the Electroplating facility.

To apply for this role please submit your CV, with a covering letter and salary expectations to Janine Barber, HR Advisor; e-mail Janine.barber@ametek.com
